

CIXIO TECHNOLOGIES PRIVATE LIMITED as an agile, cutting-edge startup, expertise in software development.

Startup Profile

Category	Detail
Identity	CIXIO TECHNOLOGIES PRIVATE LIMITED
Tagline	Innovating Tomorrow's Enterprise, Driven by AI.
Headquarters	Chennai, Tamil Nadu, India (RoC-Chennai)

Core Focus & Expertise

At CIXIO, we are a technology-first startup laser-focused on delivering **end-to-end software development** that transforms business operations and drives innovation.

We specialize in high-demand, high-impact domains, leveraging deep technical expertise to build scalable and secure solutions for our global clientele.

Domain	Expertise	Value Proposition
AI & Machine Learning (ML)	AI-Driven Automation, Predictive Modeling, Natural Language Processing.	Automating complex business processes to reduce operational costs and unlock new revenue streams.
Data Engineering	Data Architecture, ETL/ELT Pipelines, Cloud Data Warehousing.	Building robust, scalable data infrastructure that provides reliable, real-time insights for critical decision-making.
Web & Mobile Development	Full-Stack Software Engineering, Microservices Architecture, Agile Delivery.	Delivering bespoke, high-performance web and mobile applications from concept to deployment.
Enterprise Compliance	Data Privacy (e.g., GDPR, HIPAA), Security Audits, Regulatory Adherence.	Integrating compliance and security into the core software lifecycle, ensuring peace of mind for enterprises.

Our Capability

We provide complete, **end-to-end software development** services. This covers the entire product lifecycle:

- Strategy & Discovery:** Requirement gathering, solution architecture, and technology roadmap creation.
- Development & Integration:** Agile development, software engineering, and seamless integration with existing systems.
- Deployment & Management:** Cloud infrastructure setup, continuous delivery, and ongoing maintenance and support.

We are experts in leveraging **software engineering** principles to build maintainable code, implementing best practices for **data privacy**, and using **AI-driven automation** to enhance enterprise efficiency and compliance.

The Team

- **Core Team:** 10 highly experienced professionals.
- **Expertise:** Over a decade of cumulative, specialized experience across crucial domains, including:
 - Artificial Intelligence
 - Data Engineering
 - Web & Mobile App Development
 - Full-Stack Software Development
- **Expansion & Capacity:** We are adding **16 resources in Q1 2026**, bringing the total team size to **26** (Full-Time and Part-Time). This expanded, diversified team structure provides the **flexibility** to successfully drive multi-platform application development

Legal & Operational Readiness

CIXIO TECHNOLOGIES PRIVATE LIMITED is built on a solid foundation, having completed all legal and regulatory prerequisites in India. We have established a robust technological infrastructure designed to efficiently support global development teams, employees, contractors, and customers from day one.
